

Our steel trailer and frame kits provide the perfect blank canvas to build your own tiny home at your own pace, offering an affordable entry point into the tiny home market.

Choose from one of our standard designs, bring your plans to us or work with our design team to create a custom frame that will bring your vision to life!

Delivery is available Australia wide or pickup from our factory in Carrum Downs.

Trailers

Our Australian made 2.4m wide trailers can be any length between 4.5 to 10 metres and come with:

- Engineering certificate
- Registration and VIN plate
- Electric brakes and breakaway system
- 4 drop legs
- Choice of colour – black, grey or silver

Steel Frames

Our 90mm light gauge steel frames are made with Bluescope TRUCORE steel.

- Engineered to exact specifications
- Lighter and stronger than timber
- Termite, fire, rot and fungus proof
- Service holes for electrical wiring and water pipes

Lightweight Insulated Floor

Our single piece lightweight insulated subfloor weighs only 2.8kg per square metre and has an R1.03 insulation R value.

Tiny Homes Built to Lock-Up Stage

We can build our tiny homes to lock-up stage, leaving the interior as an empty shell to complete at your end. Standard inclusions for lock-up stage are:

- External cladding
- Roof and guttering
- Double glazed windows and doors
- Vapour permeable wall insulation wrap
